

ACTIVELY RECRUITING BETA USERS FOR NEW PCA MARKETPLACE

WE WANT YOU!

PCAMATCH.ORG

PERSONAL CARE ASSISTANT
MATCH-MAKING MARKETPLACE

Connecting People with Disabilities To The Personal Care They Need

CIL Jacksonville is actively developing an online PCA match-making marketplace, hosting an extensive directory of personal care assistants of all experience levels and service types.

This service will be 100% free to use for not only PCA-seekers, but also 100% free for independent PCAs, with no membership, subscription, or listing fees. All financial exchanges will happen outside the app.

Before the public launch, we're inviting a small group of PCAs to join our beta testing group. Beta participants will help us test messaging features, profile setup, and the overall experience so we can make the platform as useful and accessible as possible. If you are a PCA (or know PCAs) who would like the chance to help shape a new community resource, we'd love to have you involved!
